

Note:

- (modified) Vickrey Auction
- only one auction round
- buyer – 1 max price: 1.80
- buyer – 2 max price: 3.20
- buyer – 3 max price: 3.50
- seller min price: 2.0

NOTE: In case we have multiple sellers, the workflow is similar. In the end, the highest bidder is matched with the seller of the highest price, the second highest offer with the second highest seller price ... and so on. Please keep in mind that this is a vickrey auction => hence, highest bidder pay price of the second highest offer and so on...
